Standard, metallics, veins, textures and crinkle effects available in both TGIC-free and low-cure options. We do color matches and provide various other effects with certain order quantities.

Use cases for FORREST Exterior Powder Coatings

- Lawn & Garden
- Recreational Equipment
- Architectural (superdurable)
- General Metals
- Appliance
- Fencing

Benefits of FORREST Exterior Powder Coatings

- High impact resistance and flexibility
- Exterior durable
- Excellent adhesion
- Excellent chemical resistance
- Excellent flow and leveling
- Cost effective

106 SERIES

Standard polyester powders for interior or exterior applications. Available in a variety of decorative colors and special effects, including varied gloss levels and textures. Good flow for easy application. Typical end uses include lawn and garden, recreational equipment, architectural and general metals. Also available in TGIC-free formulations (107 and 108 Series) and RAL colors.

044 SERIES

An exterior grade urethane powder coating for industrial finishing of steel and aluminum.

TGIC-FREE POWDERS

TGIC-free polyester powder coatings offer the same advantages as standard polyesters with TGIC, but are used to reduce risks and comply with regulations.

It is always recommended the user conduct tests to determine the suitability of the product for the intended use on appropriate substrates.
